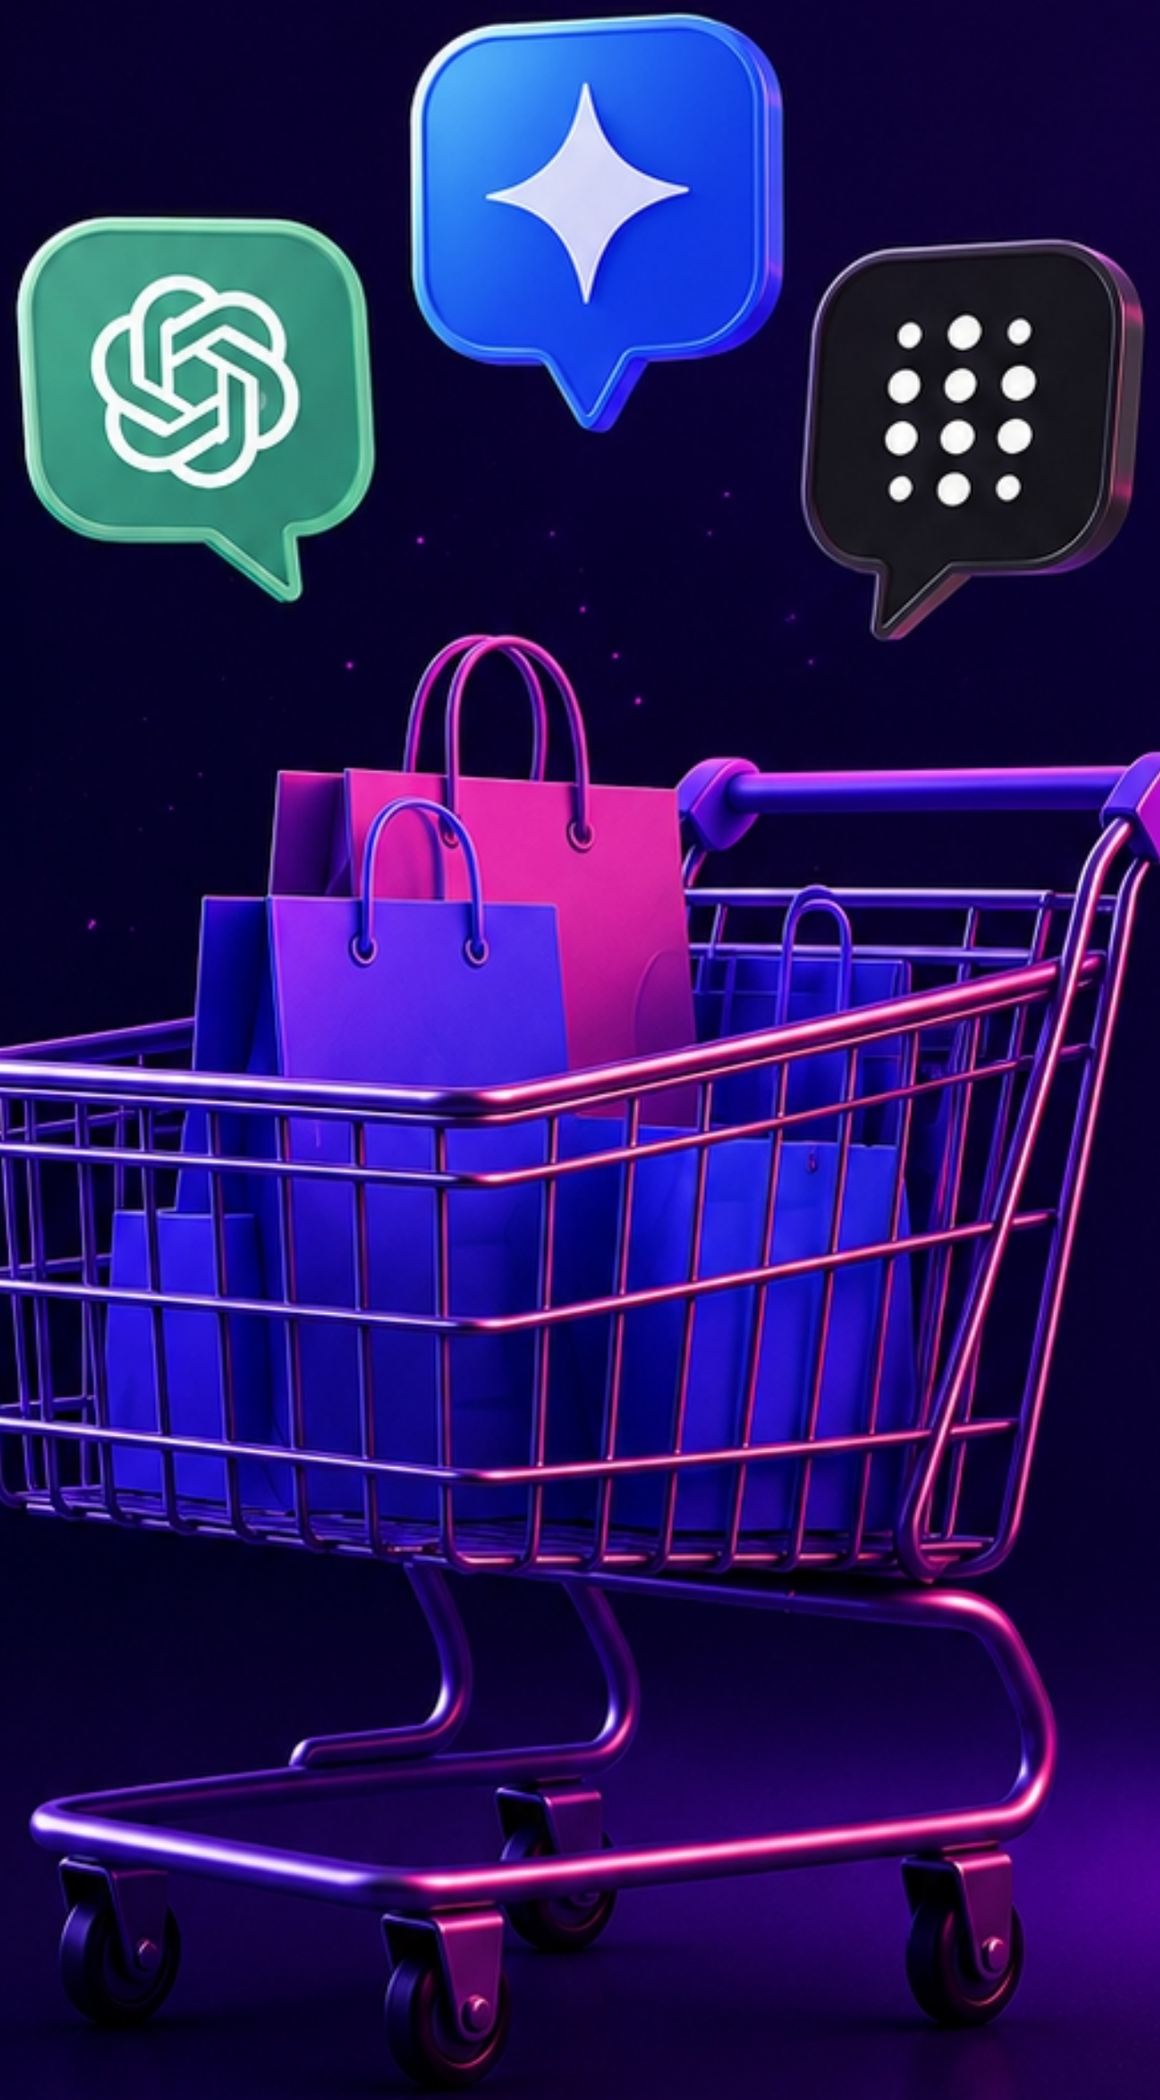
Is AI Recommending Your Brand?



If ChatGPT, Gemini, or Perplexity can't find your brand, you're losing customers.

Swipe to see why >>>

Futurism

01

AI Shoppers
Convert More Often

AI-Referred Traffic:

1.66%

Conversion Rate

Traditional Search Traffic:

0.15%

Conversion Rate

AI visitors are

11x

more likely to take action

Futurism

02

The Revenue Leak

A shopper asks:

"Best sustainable sneakers under $150 with fast U.S. shipping"

- Competitor gets recommended
- Your brand doesn't appear

What happens?

No visibility	No qualified traffic	No sales opportunity

Futurism

03

Why Retail Brands Lose in AI Search

- Relying only on traditional SEO
- Weak brand authority
- Inconsistent digital presence
- Ignoring AI-driven buying behavior

Visibility alone doesn't drive revenue.

Futurism

04

Retail Brands That Win AI Search Win More Customers

- Stronger AI Visibility
- Higher Buyer Trust
- Better Conversions
- Increased Revenue
